Subject: **INFORMATION BULLETIN: 28**
APPRENTICESHIP OPPORTUNITIES WITH SHEET METAL WORKERS

EFFECTIVE DATE

This Bulletin is effective upon date of issue.

PURPOSE

The purpose of this policy is to provide information on the current Apprenticeship Program application process for careers through the Sheet Metal Workers' Local 105.

SHEET METAL WORKERS' APPRENTICESHIP

The Sheet Metal Workers' Local 105 Apprenticeship Program is currently accepting applications for 1st period apprentices. Along with craftsmen in the electrical, carpentry and plumbing fields, sheet metal workers build homes and large commercial structures. The Sheet Metal Industry is unique in that it designs, manufactures and installs its own products. Sheet Metal Shop Workers take ordinary pieces of flat metal and make them into specialized products like duct systems and solar panels. These products are usually specially designed for particular construction projects.

Apprenticeships with the Sheet Metal Workers are 5 years in length. Starting wages are \$17.27 per hour plus benefits. Pay increases for apprentices who meet necessary qualifications occur every 6 months, during the 5-year training period. Requirements for acceptance include being 18 years of age (or 17, with a parent's approval), completion of high school diploma or G.E.D., and ability to pass mathematical and written tests upon acceptance of initial application.

ADDITIONAL INFORMATION

For additional information, contact the Sheet Metal Joint Apprenticeship and Training Committee's east Training Center at (714) 901-3281. Applicants should apply in person at 11751 Monarch Street, Garden Grove, 92841, 8 am – 3:30 pm, Monday through Friday. More information is available at www.sheetmetalappr.org. Staff and service providers may also contact George Fernandez, the Bureau's Employment Specialist for apprenticeship program placements at (562) 570-3727 at the Center for Working Families.
